

# OEM QUALITY HONE TOOLING!

Engineered to function in your  
existing machines and produce  
OEM quality cylinder bores

Bates Technologies, with a legacy of over 75 years producing tooling, abrasives and gaging to the OEM engine builders introduces its ProMatic line of hone tooling, abrasives and gaging to the engine builder and re-builder market.

Designed to hone automotive, diesel and recreational engine cylinder bores, the ProMatic tooling has proven to successfully reduce cycle times, improve bore geometry and enhance surface structuring.

*Step up to state-of-the-art  
in durable hone tooling . . .  
step up to Bates Technologies.*
